

A NEW International PhD Program in Molecular Biology

managed by

Institute of Biochemistry
and Biophysics, Polish
Academy of Sciences
and
International Institute
of Molecular and
Cell Biology

together with a number
of foreign partner
institutions

Studies of nucleic acids and proteins – from basic to applied research

FOUR THEMATIC LINES:

- DNA biology
- RNA biogenesis and its control
- mechanisms of cellular signalling and trafficking
- applied molecular biology

**Students from all countries
are invited to apply!**

**Master's degree is not a must to apply
but required till October 1, 2010.**

Up to 19 students will be selected by means of
an open international competition.

For more information go to:

<http://www.ibb.waw.pl/molbiophd>

Duration of the program:

4 years including 6-24 months spent abroad

Fellowship:

3500 PLN monthly

5000 PLN monthly (during stay abroad)

Contact:

e-mail:

mpd@ibb.waw.pl

phone: +48 22 592 13 21

address:

Prof. Magdalena Boguta
Institute of Biochemistry
and Biophysics,
Polish Academy of
Sciences

5a Pawinskiego St.
02-106 Warsaw,
POLAND

**Application
deadline:**

May 5, 2010
